ZONING HEARING BOARD

8. Describe the specific nature of the present use being made of the property:

9. Upon what grounds do you base this appeal?

A. A use permitted by special exception is one which by virtue of its own particular characteristics may be permitted in particular areas only after review, public hearing, and approval by the Zoning Hearing Board. Special exceptions may be granted subject to certain requirements as may be deemed necessary for the preservation of the general character of the neighborhood in which such buildings or structures are to be placed. Note: A special exception in any zoning district will be granted only if the permit application is accompanied by plans and other descriptive materials sufficient to clearly portray the intentions of the applicant.

B. A variance by the Zoning Hearing Board is required if the proposed building(s) or structure(s) do not meet all of the requirements of the Millersville Borough Zoning Ordinance. A variance may be granted where such variance will not be contrary to the public interest and where, owing to special conditions, a literal enforcement of the provisions of the ordinance will result in unnecessary hardship. Such hardships occur only where circumstances affecting the land are unique and applicable to that land alone, and are not conditions that affect the whole neighborhood. If there is general hardship, the situation should be remedied by revision of the general zoning regulation and not by a granting of special privilege to single owners.

Note: An individual is entitled to a variance only when the hardship is peculiar to the land.

C. Does there exist unique physical circumstances or conditions, including irregularity, narrowness or shallowness of lot size or shape, or exceptional topographical or other physical conditions peculiar to the particular property? *(It must be remembered that the granting of a variance is based upon the unnecessary hardship due to existing conditions, and not the circumstances or conditions generally created by the provisions of the Zoning Ordinance in the neighborhood or district in which the property is located.)*

D. Will the variance, if authorized, alter the essential character of the neighborhood or district in which the property is located, or substantially or permanently impair the appropriate use of development of adjacent property, or be detrimental to the public welfare? Please explain.

10. What is the specific intended use of the premises? Consider such factors as traffic generated, parking facilities, number of employees, nuisance characteristics (*i.e. emission of noise, dust, odor, smoke, fire hazards, or hours and manner of operation*).

11. Landscaping, if planned.

12. Character of the structures and uses either existing or being considered on properties abutting the subject property (*e.g. single-family residential dwellings, golf course, gas station, etc.*).

13. Type of sewage and water facilities available on property. _____
