Eagle Disposal will be enforcing the following collection mandates, in an effort to protect their frontline team members, and as a result of having a limited workforce during this COVID-19 pandemic:

- **All trash must be bagged and tied.** If you wish, you can then put the bag(s) in your trash can. **Loose items will be not be collected.**

- **All recyclable materials must be placed inside your recycling container.** If possible, **flattened and bundled corrugated cardboard should also be placed in your recycling container.** All other recyclable items left outside of your recycling container will not be collected.

---

**Please continue to check the Borough’s website for updates.**

Eagle Disposal takes great pride in being a trusted partner in the south central Pennsylvania community for the last 20 years. Your understanding and patience is appreciated as we all navigate these unprecedented times together.
